BILATERAL MEETINGS

(2p.m. - 5p.m.)

DESCRIPTION In collaboration with the Slovak University of Agriculture and Institute of Plant Genetics and Biology at the Slovak Academy of Sciences in Nitra, the Agrobiotech university research center is being built for the genetic research of economically important organisms and biotechnology. The research center is financially supported by the EU Structural Funds within the operational programme Research and Development. At Faculty of Natural Sciences, five research laboratories equipped with the latest cutting-edge technology at the respective biology departments and the Department of Chemistry are under construction.
